

This game is about using a bank account.

The cards show amounts of money and why they were paid.

Words and amounts of money are as shown on the cards.

Play the game using the cards.

Fill in the table on the next page.

Information

Money paid out of the account goes into one column.

Money paid in goes in another column.

After each transaction, the balance shows how much there is in the account.

Think about

What happens to the balance when money is paid out of the bank?

What happens to the balance when money is paid into the bank?

What happens if the amount paid out is more than the balance?

At the end of the activity

How can you work out the total amount paid out?

How can you work out the total amount paid in?

How can you check that the final balance is correct?
